### Powerful performance and 5G connection with MediaTek Dimensity 810

Redmi Note 11S 5G is equipped with a MediaTek Dimensity 810 processor built on flagship-level 6nm process, offering a max clock speed up to 2.4GHz to deliver efficient and powerful performance while conserving power. It also supports dual 5G SIM to access the future-proof network. Utilizing UFS 2.2 storage, the device brings faster writing speed, which means faster installation and loading of all your favorite applications.

### Long-lasting 5,000 mAh battery with 33W Pro fast charging

Powered by a large 5,000mAh battery, Redmi Note 11S 5G gets you through more than just one day on just a single charge. Paired with 33W Pro fast charging, the device charges to 100% in around an hour, allowing you to spend more time focusing on what truly matters and less time charging.<sup>1</sup>

### Effortless photography with 50MP AI triple camera

Redmi Note 11S 5G comes with a 50MP high-resolution main camera for taking high quality photos and videos, an 8MP ultra-wide angle camera extends your perspective with a 119-degree viewing angle and a 2MP macro camera that captures fine details up close. The device also offers a suite of different filters at your fingertips that can craft sensational yet creative photos and videos. The 13MP selfie camera at the front is capable of capturing panorama selfies to combine your selfies with the beauty of the environment.

### Immersive viewing with 90Hz AdaptiveSync Dotdisplay

Featuring a 6.6" display which supports DCI-P3 wide color gamut, Redmi Note 11S 5G brings vivid picture quality and amazing color details, and offers an even smoother screen experience with 90Hz refresh rate and 240Hz touch sampling rate. The display is also equipped with the AdaptiveSync technology which optimizes the refresh rate depending on the content being viewed to reduce power consumption, while extending the battery life.
